PROFILE

With a background in public international law, I have experience working for a wide variety of different organizations. Starting as a researcher within human rights and climate rights, I have established myself as a consultant working for organizations ranging from NGOs to feature film and documentary production companies. The focus of all my work is on the improvement and better representation of peoples and planet

I was raised bilingually and am both a Dutch and American citizen.

WORK EXPERIENCE

Production Coordinator

N279 Entertainment & Isabella Films | June 2022 - Present

- N279 Entertainment & Isabella Films are two female run collaborating feature film production companies. The films created are often art-house films, with a strong connection to humanity and societal struggles. As production coordinator, I am production lead on a documentary film and assistant for various feature films. I focus specifically on (international) financing, development, and pre-production.

Project Coordinator

Nationaal Rampenfonds (NRF) | August 2021 - Present

- NRF is the Dutch disaster fund, active when a national disaster occurs, most recently the flooding in the south of the Netherlands. As project coordinator, I coordinate the behind-the-scenes application process for individuals, organizations and municipalities.

Consultant

Climate Governance Commission | Jan 2020 - Present

- The Climate Governance Commission aims to fill a crucial gap by developing, proposing and building partnerships that promote feasible, high impact global governance solutions for urgent and effective climate action. As consultant, I research and edit policy documents regarding developments in international climate law, including:
 - "Governing our climate future"
 - Policy proposals regarding the halt of fossil fuels subsidies
- Additional work includes fundraising and event management with UN and civil society members.

Research Consultant Climate-Health

Amref Health Africa | March - September 2022

- As a consultant, I researched the link between climate and health, providing Amref Flying Doctors NL the tools to incorporate climate as a cross-cutting subject within their organizational structure, ranging from education to program implementation to monitoring & evaluation and advocacy.
